The Departments of English and Commerce jointly organized a Seminar on "Entrepreneur Development" in association with Career Guidance and Placement Cell and IIC on 12th March 2021. The Resource Person for the Seminar was Mr. Joshy K.T., Rtd. Regional Manager, Oriental Insurance Company.

Dr. Pretty John P., HOD of English, Career Guidance and Placement Cell Co-ordinator and IIC Start-up Activity Co-ordinator welcomed the gathering. The Principal Dr. Sr. Licy A.D. delivered the Presidential Address. Mr. Joshy K.T.'s inaugural address was followed by the felicitation of Dr. Bindhu K.B., HOD of Botany and President, IIC. Ms. Celin K.A., HOD of Commerce proposed the vote of thanks. Ms. Sifna Xavier, Faculty, Department of English was the anchor and moderator of the seminar.

The Resource Person opine that many scholars do not agree on all the special characteristics that the entrepreneurs are supposed to possess to function as entrepreneurs. In fact, there have been noted cases where successful entrepreneurs have not been found possessing many or all the special characteristics identified by experts to become successful entrepreneurs. Scholars now identify a set of several human motivations that influence the entrepreneurial process and have concluded that that entrepreneurial spirits are not solely the result of human action. External factors such as the economy, the social structure, the political environment, etc., also play a significant role in the entrepreneurial process.

WEBINAR REPORT – DECEMBER 2020

B.Voc Software Development stream of Department of Vocational Studies organized an Webinar on "Machine Learning". The Resource Person was Dr. Jino P J , Data Scientist, UVJ technologies , Cochin. Event Date was 12.08.2020 and Time: 11.00 AM to 12.00 P.M. E - Certificate provided for all the active participants. Webinar conducted in Google meet platform. Students and faculties from Carmel College, Mala, St.Mary's College, Thrissur, and St.Joseph's college, Irinjalakuda were participated.

Machine learning (ML) is the study of computer algorithms that can improve automatically through experience and by the use of data.^[1] It is seen as a part of artificial intelligence. Machine learning algorithms build a model based on sample data, known as training data, in order to make predictions or decisions without being explicitly programmed to do so.^[2] Machine learning algorithms are used in a wide variety of applications, such as in medicine, email filtering, speech recognition, and computer vision, where it is difficult or unfeasible to develop conventional algorithms to perform the needed tasks.

We have conducted this webinar to enrich the students with new technology's. As artificial intelligence is an emerging technology in this era.

Data quality issues in data set

- **Noise and Artifacts**
 - Text (stemming), Image (salt and pepper noise, light illumination), Video (Low resolution video), Audio (noise)
- **Bias**
 - Variation of measurements from the quantity being measured
 - If data set is biased then designing a good pattern recognition system is difficult
- **Missing Values**
- **Duplicate data**
- Is data normalized or standardized
- **Curse of dimensionality**
- **Redundant and irrelevant feature**
- **Sample size**
 - Less number of samples → Learning is difficult
 - More number of samples → requires more memory and computations

REPORT ON

Webinar on “IPR (Intellectual Property Rights)”

Organized by the Career Guidance and Placement Cell and Department of English (26-06-2020)

Adv. Sreekala Vivek, Notary Public, High Court, Ernakulam

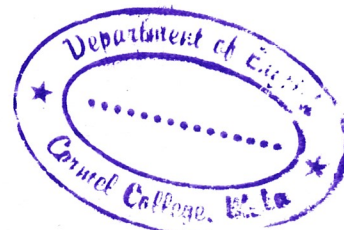

On 26th June 2020, the Career Guidance and Placement Cell and Department of English jointly organized a Webinar on “IPR (Intellectual Property Rights)”. Adv. Sreekala Vivek, Notary Public, High Court, Ernakulam was the Resource Person.

Adv. Sreekala Vivek stated that intellectual property rights (IPR) are legal rights aimed at protecting the creations of the intellect, such as inventions, the appearance of products, literary, artistic and scientific works and signs, among others. She added that the protection of IPR allows the innovator, brand owner, patent holder and copyright holder to benefit from his/her work, labor and investment, which does not mean monopoly of the intellect. Such rights are set out in the International Declaration of Human Rights, which provides for the right to benefit from the protection of the moral and physical interests resulting from the right holder’s work; literal or artistic product. She also explained about the four different types of IP - four distinct types—copyrights, trademarks, patents, and trade secrets. IPR offers due recognition to the creators and inventors.

-DR. PRETTY JOHN P.
(Career Guidance and Placement Cell Co-ordinator)
