The Resource Person opined that the delivery of legal services is a complex process that typically requires teams of skilled professionals to provide quality and cost-effective service. As a result, the legal field offers many jobs encompassing a diverse range of skills, experience, and education. Developments in the law and technology have also created new legal career opportunities. People will always need lawyers. However, plenty of job options exist within the legal field beyond becoming a lawyer.

She suggested many clerical career options in legal industry. Clerk's typical tasks may include taking witness statements, attending hearings, taking notes in court, filing documents at court general administration and the like. They may work in a range of practice areas, including crime, immigration, family and personal injury. Court reporters record verbatim court hearings for official transcripts of court proceedings. Increasingly, reporters use a computer-aided transcription system rather than traditional shorthand. Court reporters don't need to be legally qualified to enter the profession, although it is an advantage. Lawyer's or barrister's clerk is responsible for running the day-to-day business of chambers and organizing barristers' caseloads. At the junior end of the job, a clerk will prepare papers, carry documents to and from court, and perform other administrative tasks. As the clerk becomes more senior, they will manage diaries, liaise between solicitors, clients and barristers, and bring new business into the chambers. Legal secretaries are also called an administrative assistant, this position entails less responsibility than a paralegal but often more than the average secretarial role. Responsibilities include the normal sphere of secretarial duties in addition to things like file maintenance and drafting basic correspondence, such as letters to clients notifying them of upcoming court dates.

The talk not only helped to create alumnae interaction but also made students to get information regarding clerical career choices in legal industry make them financially independent.

ALUMNAE TALKS- 2022-23: "Exploring the Woman's Self through Art" (22-08-2022)

The Department of English organized Alumnae Talks 2022-23 on 22nd August 2022. Our Alumnae Ms. Thasbecha Latheef M.A. (2017-20 B.A. Functional English Batch) was the Resource Person for the talk on "Exploring the Woman's Self through Art."

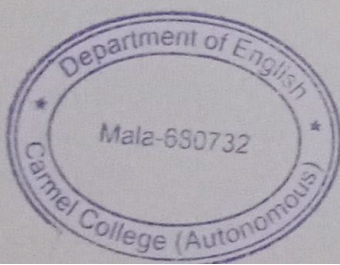

The Resource Person opined that a creative woman is a woman who utilizes her imagination, skills, originality and unique perspective to create something new. The artistic skill allows us to have a deeper understanding of our emotions; it increases our self-awareness, and also lets us to be open to new ideas and experiences. If a woman loves to draw, her passion could very well sketch out impressive career paths like animator, illustrator, art teacher, painter, blogger, doodler and fashion designer. The artistic skills combined with writing skills help one to find careers in media development too.

The talk not only helped to create alumnae interaction but also inspired students to develop creative and innovative thinking and to get information regarding career choices related to art and writing. It also made them realize that they could empower themselves as women in the course of self-exploration through artistic and writing skills and by finding such careers to make them financially independent.

Report of International Webinar On Career Prospects in Political Science.

Political analysis is one of the most popular career options in political science and has a genuine desire to contribute to the common good. Students who specialize in political science develop strong research, writing, and critical thinking abilities as well as in-depth understanding of public policy, all of which are necessary qualifications for applying for the position of a policy analyst. Policy analysts are responsible for assessing the consequences of implementing a policy and developing arguments that either support or refute its implementation. Graduates of political science are well-suited for this position since they have knowledge about the nation's political and legislative systems and have the requisite skills.

The International webinar was conducted via Google meet on 27th January 2023 at 6:00 PM. The class was delivered by Fasna K.A, an alumni of the department and teacher at Asian School, Bahrain on the topic Career Prospects in Political Science. A brief detailing was delivered on the basics of the course and then explained the sea of opportunities. She encouraged the students and shared her career journey. A total number of 77 participants attended the webinar. It was coordinated by Ms. Mary Philip (Head Of the Department), Ms. Ushus Mol E.U, Ms. Dhani Mol and Ms. Amilsha A.A were the joint coordinators.

Outcome of the programme

The session was very informative and drawn the attention of students into various careers under the course. Being a political science student, they were able to have the knowledge about the job opportunities after graduation. All the students who took part in the session have promised to study further and take up their career efficiently to make sure their contribution into the country.
