**Field Trip to Nature Preserve**

**05.06.2023**

In celebration of World Environment Day, the Department of Botany, in collaboration with the Biodiversity Club, conducted a field trip to Kaduppukkara on June 5, 2023. The coordinators, Dr. Sinjumol Thomas and Dr. Roby T J, played a crucial role in organizing and guiding the participants throughout the field trip, ensuring its success. The aim of the trip was to explore the local flora, observe biodiversity, and enhance participants' understanding of plant life. A total of 27 participants, including both faculty and students, actively attended the field trip, showcasing a keen interest in environmental exploration. The group left the college premises at 10:00 am and reached Kaduppukkara by 10:30 am. The participants immersed themselves in observing the local flora, exploring the natural beauty of Kaduppukkara. The scenic surroundings added to the overall enjoyment of the experience. Plants belonging to various families, including Menispermaceae, Convulvulaceae, Sapindaceae, Verbenaceae, Rubiaceae, Nympheaceae, and Clusaiaceae, were collected during the trip. The assistance of teachers in plant identification added an educational dimension to the excursion. Noteworthy plants collected included *Chasalia curviflora*, *Cardiospermum helicacabum*, and many more, contributing to a comprehensive understanding of local biodiversity. The group returned to the college by 12:30 pm.

**Outcome:** Participants successfully completed a taxonomy collection, enhancing their practical skills in plant identification and collection. The hands-on experience enriched their knowledge, providing insights into the diversity of plant life in the Kaduppukkara region. The trip served as an opportunity for participants to appreciate the beauty of plants that are commonly seen only in

natural habitats. The overall experience was described as fruitful and exciting, indicating a successful and enjoyable educational excursion.

### **Research & PG Department of Botany Organizing**

#### **Study Trip**

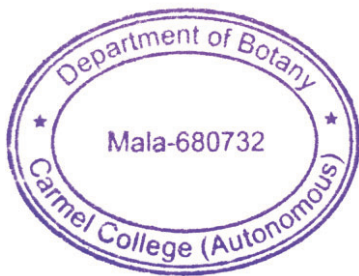

**04.01.2024 - 06.01.2024**

As part of the curriculum, the B.Sc. Department of Botany organized a trip to the Indian Cardamom Research Institute (ICRI), Myladumpara, on January 4th, 2024. The trip included a total of 23 students and 2 teaching faculty members, including Dr. Sinjumol Thomas and Dr. Roby T J. The journey commenced from the college at 4:30 am and reached the destination by 9:00 am. ICRI was established in 1978 as the research wing of the Spices Board, with its headquarters at Myladumpara, Idukki District (Kerala), to undertake basic and applied research on small Cardamom. At ICRI, Dr. K. Pradeep Kumar, Dr. Manoj Oommen, and Dr. Dhanapal provided classes on cardamom. The topics covered included Germplasm Conservation & hybridization programme, Weather Monitoring & Crop Impact studies, Monitoring of Pesticide Residues, Soil Health Analysis, Post-Harvest Technologies and Farm Mechanization, Pest and Disease surveillance, Screening of germplasm for Pests and diseases, evaluation of pesticides and bioagents. They also explained the release of 8 high-yielding varieties viz., ICRI 1, ICRI 2, ICRI 3, ICRI 5, ICRI 6, and ICRI 7 & ICRI 8 for small cardamom during the period. The ICRI campus hosts various tree associations, such as *Cullenia-mesua-palaquium*, *Hopea-Diptero* *Carpus-Vateria*, and *Myristica Polyathica-Calophyllum*, adding to the diverse and enriching learning environment.

After visiting ICRI, went trekking in Ramakkalmedu, including visits to the Amappara viewpoint to study the vegetation and plant distribution in Ramakkalmedu. Stayed overnight in Ramakkalmedu. The next morning, continued our journey to Kodaikanal. On the way, visited a grape farm in Cumbum, Theni District of Tamil Nadu. In Cumbum, studied farming and processing techniques related to grapes. Then reached Kodaikanal by 1:30 pm and proceeded to study the vegetation and plant distribution in the Kodaikanal region.

On the final day, during the return journey, we visited Moir Point, Pine Forest, Guna Caves, Suicide Point, and Silver Cascade Waterfall. We began our return journey at 2:30 pm and reached our college by 10:30 pm, cherishing many unforgettable experiences. Through this study tour, the students gained detailed knowledge about plant species and explored the beauty of nature.

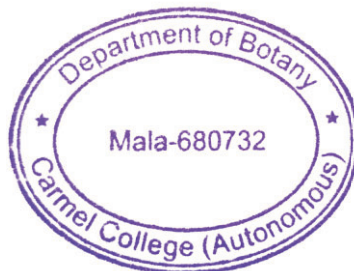

**Outcome:** Overall, the study tour successfully achieved its objectives of providing students with experiential learning experiences, exposure to diverse plant species, and insights into agricultural and horticultural practices. The trip not only enhanced botanical knowledge but also fostered a deeper appreciation for the environment and nature's beauty.

## Research & PG Department of Botany

*Organizing*

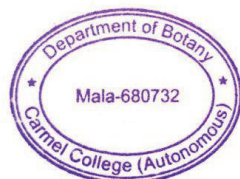

### Study Trip to JNTBGRI

18.12.2023-21.12.2023

As an integral part of the curriculum, the Department of Botany organized an educational trip to the Jawaharlal Nehru Tropical Botanical Garden and Research Institute (TBGRI), Trivandrum, on December 20<sup>th</sup>, 2023. The purpose of the trip was to provide students with valuable insights into the research and development activities in the field of botany and plant sciences. The trip included a total of 30 students and two teaching faculties. Dr. Sinjumol Thomas and Dr. Roby T J accompanied the students. The journey commenced from the college at 4:30 am, and reached our destination by 9:00 am. Upon arrival, we were welcomed by a knowledgeable guide, Mr. Mansoor, who led us through various sections of the institute. Mr. Mansoor provided detailed explanations about the ongoing research projects, botanical collections, and conservation efforts at TBGRI. One of the highlights of the visit was the exploration of the botanical gardens, where we had the opportunity to observe a diverse range of plant species, including rare and endangered ones. The experience provided valuable exposure to the practical aspects of botanical science and inspired students to explore potential career opportunities in the field. After an enriching visit we departed from the institute with a deepened understanding of botany and plant research.

**Outcome:** Students gained firsthand knowledge about the cutting-edge research conducted at the institute, enhancing their understanding of theoretical concepts learned in the classroom. The exposure to diverse plant species in the botanical gardens served as a practical supplement to academic learning, fostering a deeper appreciation for the wonders of botany and plant sciences. The trip also allowed students to interact with professionals in the field, inspiring them to consider future careers in botany and related disciplines. In conclusion, the visit to TBGRI was an educational and inspiring experience, leaving participants with fond memories and a heightened passion for the field of botany. The Department of Botany looks forward to organizing more such educational trips to enrich the learning experiences of its students.

### RESEARCH & PG DEPARTMENT OF BOTANY

#### Algal Collection Trip

The Seaweed Collection and Analysis event, organized by the Research & PG Department of Botany, took place on 21/2/2024 in Thikkodi, Kozhikode District. Dr. Bindhu K.B spearheaded the coordination of this hands-on learning experience, bringing together 16 enthusiastic students and 2 dedicated faculty members. The primary objective of the event was to explore the diverse marine algae species along the coastal region and analyse their ecological significance. The participants successfully collected a variety of algae species, including but not limited to: Gracilaria, Padina, Ulva, Caulerpa, Sargassum, Gelidium, Dictyota

The Seaweed Collection and Analysis event proved to be a valuable educational experience for all participants. It not only enhanced their understanding of marine biodiversity but also fostered teamwork, critical thinking, and interdisciplinary collaboration. The collected data and specimens will contribute to ongoing research initiatives within the Research & PG Department of Botany.

The success of this event underscores the importance of practical, field-based learning experiences in supplementing theoretical knowledge. The Research & PG Department of Botany extends its gratitude to Dr. Bindhu K.B, the participants, and the faculty members for their active involvement and contribution to the success of the event.

Overall, the Seaweed Collection and Analysis event exemplifies the department's commitment to promoting experiential learning and research excellence in the field of botany.

**OUTCOME :** The main aim of Algal collection trip was exploration and experience algal diversity. That enrich the algal knowledge, improve the theoretical knowledge of algae. Students can experience the algal diversity storing of collected algae and also herbarium making etc.

**Report**

**Exploring Excellence: A Journey Through St. Joseph's College (Autonomous)  
Tiruchirappalli, Tamil Nadu**

Introduction:

On the 7th of March 2024, a group of 11 students and faculty members, led by Dr. Sinjumol Thomas, embarked on a journey to explore the academic and research facilities of St. Joseph's College (Autonomous) in Tiruchirappally, Tamil Nadu. The visit encompassed Rapinat Herbarium, the Botany Department, as well as the Museum, Library, and Instrumentation Centre of the institution.

Rapinat Herbarium:

The visit commenced with an insightful talk on Herbarium Preparation and Maintenance at the Rapinat Herbarium By Mrs. Philomona Selvi. Participants gained practical knowledge about the collection, preservation, and curation of plant specimens, crucial for botanical research and education. The session highlighted the importance of herbariums in preserving plant biodiversity and supporting scientific studies.

Botany Department:

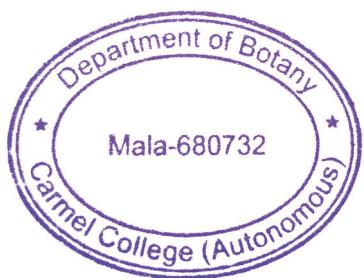

Following the Herbarium visit, attendees were engaged in a stimulating discussion on the significance of Botany in the Current Scenario at the Botany Department With Dr. SenthilKumar Head of the Department. The talk provided an overview of how the field of Botany contributes to various aspects of modern life, including environmental conservation, agriculture, medicine, and biotechnology. Participants gained a deeper understanding of the relevance and potential of Botany in addressing contemporary challenges.

Museum, Library, and Instrumentation Centre:

The exploration continued with visits to the Museum, Library, and Instrumentation Centre of St. Joseph's College. The Museum showcased diverse collections, including botanical specimens, archaeological artifacts, and cultural artifacts, enriching participants' understanding of history and science. The Library offered a wealth of resources, fostering academic inquiry and research across disciplines. Additionally, the Instrumentation Centre provided insights into advanced scientific equipment and technologies available for research and experimentation.

**Outcome:**

The visit to St. Joseph's College provided invaluable learning experiences and insights for both students and faculty members. Participants gained practical knowledge about herbarium preparation and maintenance, emphasizing the importance of preserving plant specimens for botanical research. The discussion on Botany's significance in the current scenario underscored its interdisciplinary nature and relevance in addressing contemporary challenges. Furthermore, the exploration of the Museum, Library, and Instrumentation Centre enriched participants' academic and research endeavors, highlighting the institution's commitment to excellence in education and scientific inquiry. Overall, the visit catalyzed intellectual stimulation and academic growth, inspiring a deeper appreciation for the rich academic and research culture at St. Joseph's College.

**REPORT: Factory Visit**

Mane Kancor Ingradients Ltd, Angamaly  
(20/9/2023)

KNCOR Ingredients Ltd. is a renowned chemical manufacturing company specializing in the production of various chemical ingredients used in the food, pharmaceutical, and cosmetic industries. The company is known for its commitment to quality and adherence to strict safety standards.

Our visit commenced with a warm welcome by the company's management team, who provided an overview of the company's history, mission, and core values. The students were briefed on the safety protocols and measures in place within the facility. The students were divided into smaller groups and taken on a comprehensive tour of the manufacturing facility. During the tour, they had the opportunity to observe various production processes, including mixing, distillation, and quality control testing. The students were introduced to the company's quality control laboratory, where they witnessed the testing and analysis of raw materials and finished products. This provided valuable insights into the importance of quality assurance in chemical manufacturing. The students had the privilege of interacting with the company's chemists and engineers. They engaged in discussions about the challenges and innovations in chemical manufacturing and gained valuable career insights.

**Key Learning Outcomes:** The factory visit to KNCOR Ingredients Ltd. was highly educational and enriching for the BSc Chemistry students. Some of the key learning outcomes include:

- Understanding of industrial-scale chemical processes.

- Appreciation of safety protocols and measures in a chemical manufacturing environment.
- Insight into quality control procedures and their significance.
- Exposure to career opportunities in the chemical industry.
- Application of theoretical chemistry knowledge to real-world scenarios.

**Carmel College (Autonomous), Mala**  
**REPORT: Factory Visit**

**Kerala Feeds Ltd, Kallettumkara Unit, Thrissur**  
**(10<sup>th</sup> August 2023)**

Kerala Feeds Ltd, located in IJK, is a prominent manufacturer of animal feed products in the region. During the visit to Kerala Feeds Ltd, several key aspects of the factory were examined, including production processes, quality control measures, safety protocols, and overall operational efficiency. The factory demonstrated a commitment to producing high-quality animal feed products while adhering to stringent standards of safety and hygiene.

Our visit commenced with a warm welcome by the company's management team, who provided an overview of the company's history, mission, and core values. The students were briefed on the safety protocols and measures in place within the facility. The students were divided into smaller groups and taken on a comprehensive tour of the manufacturing facility.

The factory utilizes modern machinery and equipment for the production of animal feed. The production process involves the mixing of various ingredients such as grains, vitamins, minerals, and supplements in precise proportions to meet nutritional requirements. Strict quality control measures are implemented at each stage of the production process to ensure consistency and adherence to standards. Kerala Feeds Ltd maintains a dedicated quality control department tasked with monitoring product quality throughout the production process. Regular testing of raw materials and finished products is conducted to assess nutritional content, purity, and absence of contaminants. Stringent safety protocols are in place to safeguard workers and prevent accidents.

**Key Learning Outcomes:**

- Understanding of industrial-scale chemical processes.

- Appreciation of safety protocols and measures in a chemical manufacturing environment.
- Insight into quality control procedures and their significance.
- Exposure to career opportunities in the chemical industry.
- Application of theoretical chemistry knowledge to real-world scenarios.

### **REPORT ON ONE DAY FIELD VISIT TO ADAK**

Date : 02/08/2023

Venue : ADAK, Poyya

Topic : Field Visit

On 02/08/2023, students from the third year and first year of the Zoology department embarked on a one-day field visit to ADAK, the Agency for Development of Aquaculture Kerala, located in Poyya, Mala along with Ms. Needhu Das C. D and Ms. Ayrin Jose. ADAK is a government agency dedicated to promoting sustainable aquaculture practices and fostering the growth of the aquaculture industry in the state. The primary objective of the field visit to ADAK was to provide students from the third year and first year of the Zoology department with practical exposure to aquaculture practices and the role of ADAK in the development of aquaculture in Kerala. The day began with an informative session where ADAK representatives provided an overview of the agency's mission, objectives, and its significant role in the development of aquaculture in Kerala. Students were given a guided tour of ADAK's facilities, including hatcheries, nurseries, and research labs. They had the opportunity to observe various stages of fish and shrimp farming, gaining insights into the breeding, hatching, and rearing processes. ADAK experts conducted interactive sessions where students could ask questions and engage in discussions about aquaculture practices, challenges faced by the industry, and ongoing research initiatives. The field trip included a visit to a nearby fish farm supported by ADAK. Students were able to witness real-life aquaculture practices and understand the application of ADAK's recommendations in a practical setting. Practical demonstrations were conducted to showcase modern aquaculture techniques, including water quality management, disease control measures, and the use of advanced equipment in fish and shrimp farming. The day concluded with a debriefing session, where students had the opportunity to share their observations and thoughts about the field visit. ADAK representatives provided additional information and encouraged students to consider careers in aquaculture research and development. Around 3.30 pm the field visit tends to end. 10 students from third year and 6 students from first year are the participants.

### **OUTCOMES**

- Students learned about ADAK's emphasis on sustainable aquaculture practices to ensure the long-term health of aquatic ecosystems and the industry.
- The field visit offered practical exposure to various stages of fish and shrimp farming, enhancing the theoretical knowledge gained in the classroom.

- Students gained awareness of the challenges faced by the aquaculture industry, such as disease management, environmental concerns, and the need for technological advancements.
- Understanding the significant role ADAK plays in supporting and promoting aquaculture in Kerala, contributing to the state's economic development

**DEPARTMENT OF BANKING FINANCE SERVICE AND INSURANCE**

**REPORT OF FIELD VISIT**

On 18<sup>th</sup> August 2023, Department of BFSI conducted field visit to Melker Financial Institution, Mala a prominent Non-Banking Financial Company (NBFC) in the region. The objective of the visit was to gain insights into the functioning of an NBFC and specifically explore the role of debentures in their operations. 17 students actively participated in the field visit.

The manager Mr. Varghese M.N. gave an in-depth presentation on the functioning of NBFC. He explained that NBFCs, like Melker Financial Institution, play a crucial role in the financial ecosystem by providing credit and financial services to individuals and businesses. He elaborated on the various types of services offered, including loans, leasing, and investment advisory.

The manager discussed the importance of debentures in the funding structure of Melker Financial Institution. He highlighted the advantages of using debentures, such as diversifying funding sources and reducing dependency on banks and also shed light on the regulatory framework governing NBFCs and their issuance of debentures.

**Outcome:**

The field visit to Melker Financial Institution provided BFSI students with a comprehensive understanding of the functioning of an NBFC and the pivotal role of debentures in their financial structure. The interactive session with Manager facilitated a direct exchange of knowledge and insights, enriching the learning experience. It was a valuable experience for all participants, and we extend our gratitude to Melker Financial Institution for their hospitality and willingness to share their expertise.

REPORT OF STUDY TOUR

The study tour to Munnar, a picturesque hill station in Kerala, was conducted on November 9th and 10th. The primary objective was to gain insights into the processes and operations of the Lokort Tea Factory at Adimaly. The tour aimed to provide participants with practical exposure to the production and manufacturing aspects of the renowned facilities.

Visit to the Lokort Tea Factory at Adimaly, providing participants with insights into the tea manufacturing process. 5 students from the Department of BFSI were guided through the sprawling tea plantations surrounding the factory, learning about the cultivation, harvesting, and processing of tea leaves. The tour continued to the processing unit, where participants observed the withering, rolling, fermentation, drying, and sorting processes involved in tea production. The emphasis on maintaining the quality of tea leaves was evident throughout the facility.

**Outcome**

The study tour to Munnar with visits to Lokort Tea Factory, proved to be an enriching experience for the students. The practical exposure to the manufacturing processes, sustainability practices, and the integration of local elements in product development left a lasting impression. The tour not only enhanced the participants' knowledge of the tea industries but also fostered an appreciation for the cultural and environmental aspects of the region. Overall, the study tour was a well-rounded exploration of the fascinating world of chocolate and tea production in the scenic backdrop of Munnar.

## DEPARTMENT OF B. VOC ACCOUNTING & TAXATION

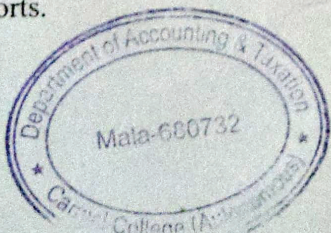

### STUDY TOUR REPORT

Department of Accounting & Taxation second-year students' study tour to Kodaikanal was started on 18<sup>th</sup> January 2024, nestled amidst the verdant Western Ghats of Tamil Nadu, was an enriching exploration of the region's environmental, cultural, and socio-economic facets. Our objectives were multifaceted: to delve into the ecological diversity and conservation initiatives, analyze the impact of tourism on the local economy and environment, explore the rich cultural heritage, and evaluate sustainable development endeavors. Our journey commenced with awe-inspiring encounters with Kodaikanal's natural splendor, traversing through verdant landscapes adorned with diverse flora and fauna. Visits to Bryant Park and Coaker's Walk provided firsthand experiences of the region's biodiversity, while discussions with conservationists illuminated ongoing efforts to safeguard Kodaikanal's ecological treasures. As we delved deeper, we uncovered the intricate interplay between tourism and the local community, witnessing both the benefits of economic prosperity and the challenges of environmental degradation and cultural commodification.

Through interactions with locals and immersion in cultural activities, we gained profound insights into Kodaikanal's vibrant heritage, from its historical landmarks to its indigenous traditions. Moreover, our exploration of sustainable development initiatives underscored the importance of adopting eco-friendly practices in tourism establishments and promoting community-driven conservation efforts. In conclusion, our Kodaikanal trip was a compelling journey that underscored the significance of harmonizing economic growth with environmental conservation and cultural preservation. The experiences garnered and lessons learned will undoubtedly inform our endeavors toward fostering responsible tourism and sustainable development in Kodaikanal and beyond.

### Outcome

- Explored conservation efforts to preserve the region's biodiversity.
- Learned about initiatives promoting renewable energy and waste management.
- Discussed the importance of community involvement in sustainable development efforts.
- Learned about initiatives promoting renewable energy and waste management.
- Discussed the importance of community involvement in sustainable development efforts.

### STUDY TOUR - REPORT

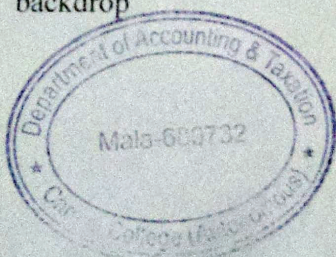

On November 9 and 10, a study tour was held to Munnar, a charming hill station located in Kerala. Gaining an understanding of the procedures and workings of the McBean Chocolate Factory and the Lokort Tea Factory in Adimaly was the main goal. The tour's goal was to give attendees firsthand experience with the manufacturing and production processes of these well-known establishments.

The McBean Chocolate Factory, nestled in the lush environs of Munnar, was the first location on the study tour. The staff gave the participants a warm welcome. The participants saw the whole process of manufacturing chocolate, from roasting and sorting cocoa beans to conching and moulding. Quality and hygiene requirements were clearly prioritised across the entire factory. There were numerous inventive chocolate flavours created using local ingredients at the McBean Chocolate Factory.

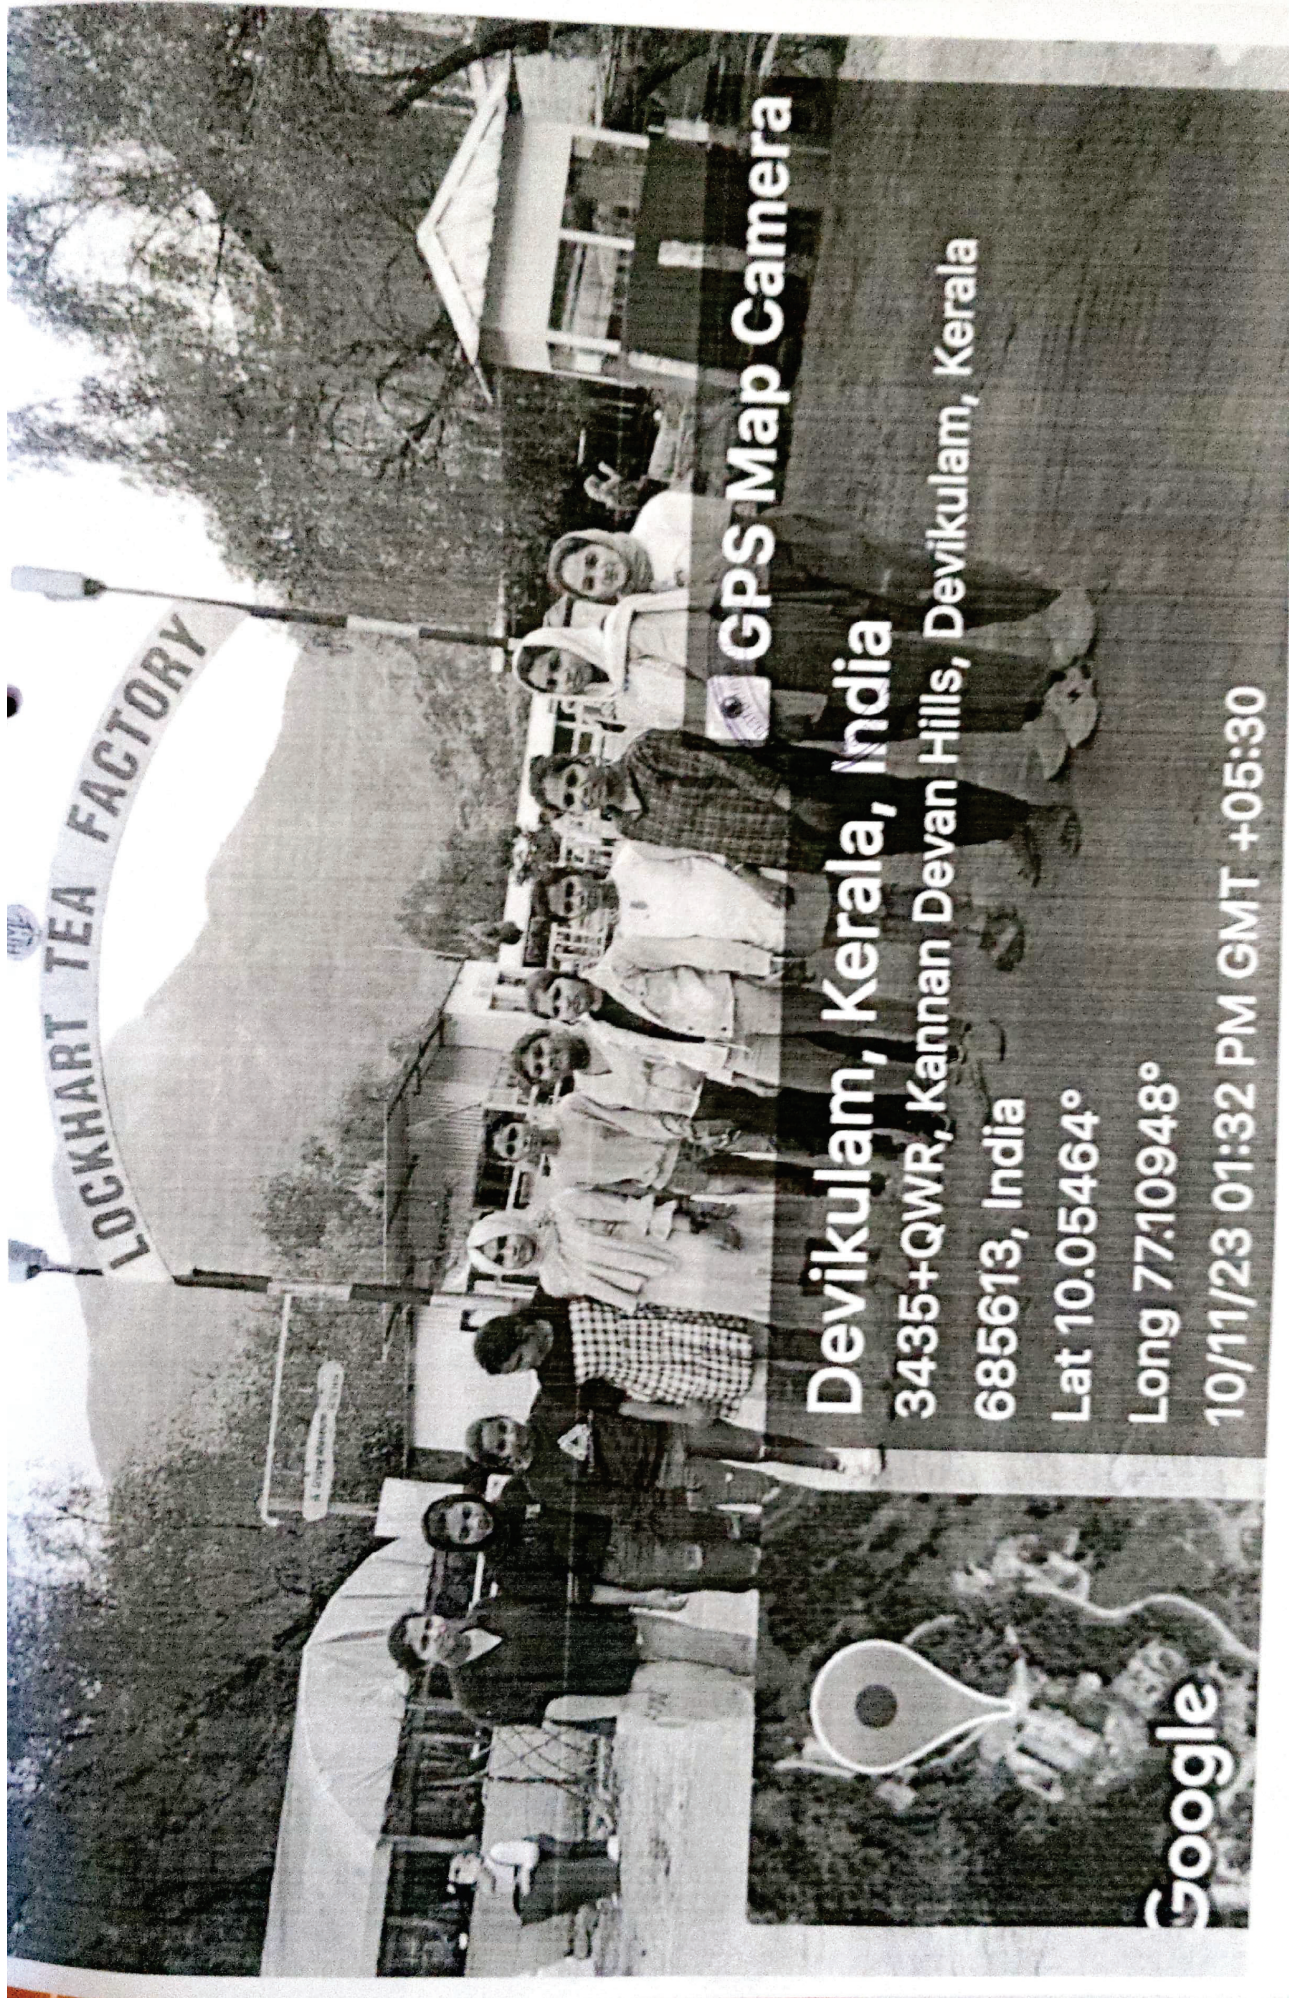

On the second day, participants got to see the Lokort Tea Factory in Adimaly, which gave them an overview of the tea-making process. During a tour of the expansive tea farms that surrounded the factory, participants learned about the growing, gathering, and processing of tea leaves. The tour proceeded to the processing unit, where attendees saw the steps involved in producing tea, including rolling, fermenting, drying, and sorting. All across the facility, there was a clear emphasis on preserving the quality of the tea leaves.

#### Outcome

- Enriching experience for students
- Practical exposure to manufacturing processes
- Increased understanding of sustainability practices
- Appreciation for integration of local elements in product development
- Enhanced knowledge of chocolate and tea industries
- Fostered appreciation for cultural and environmental aspects of the region
- Well-rounded exploration of chocolate and tea production in Munnar's scenic backdrop

### MYSORE FASHION WEEK

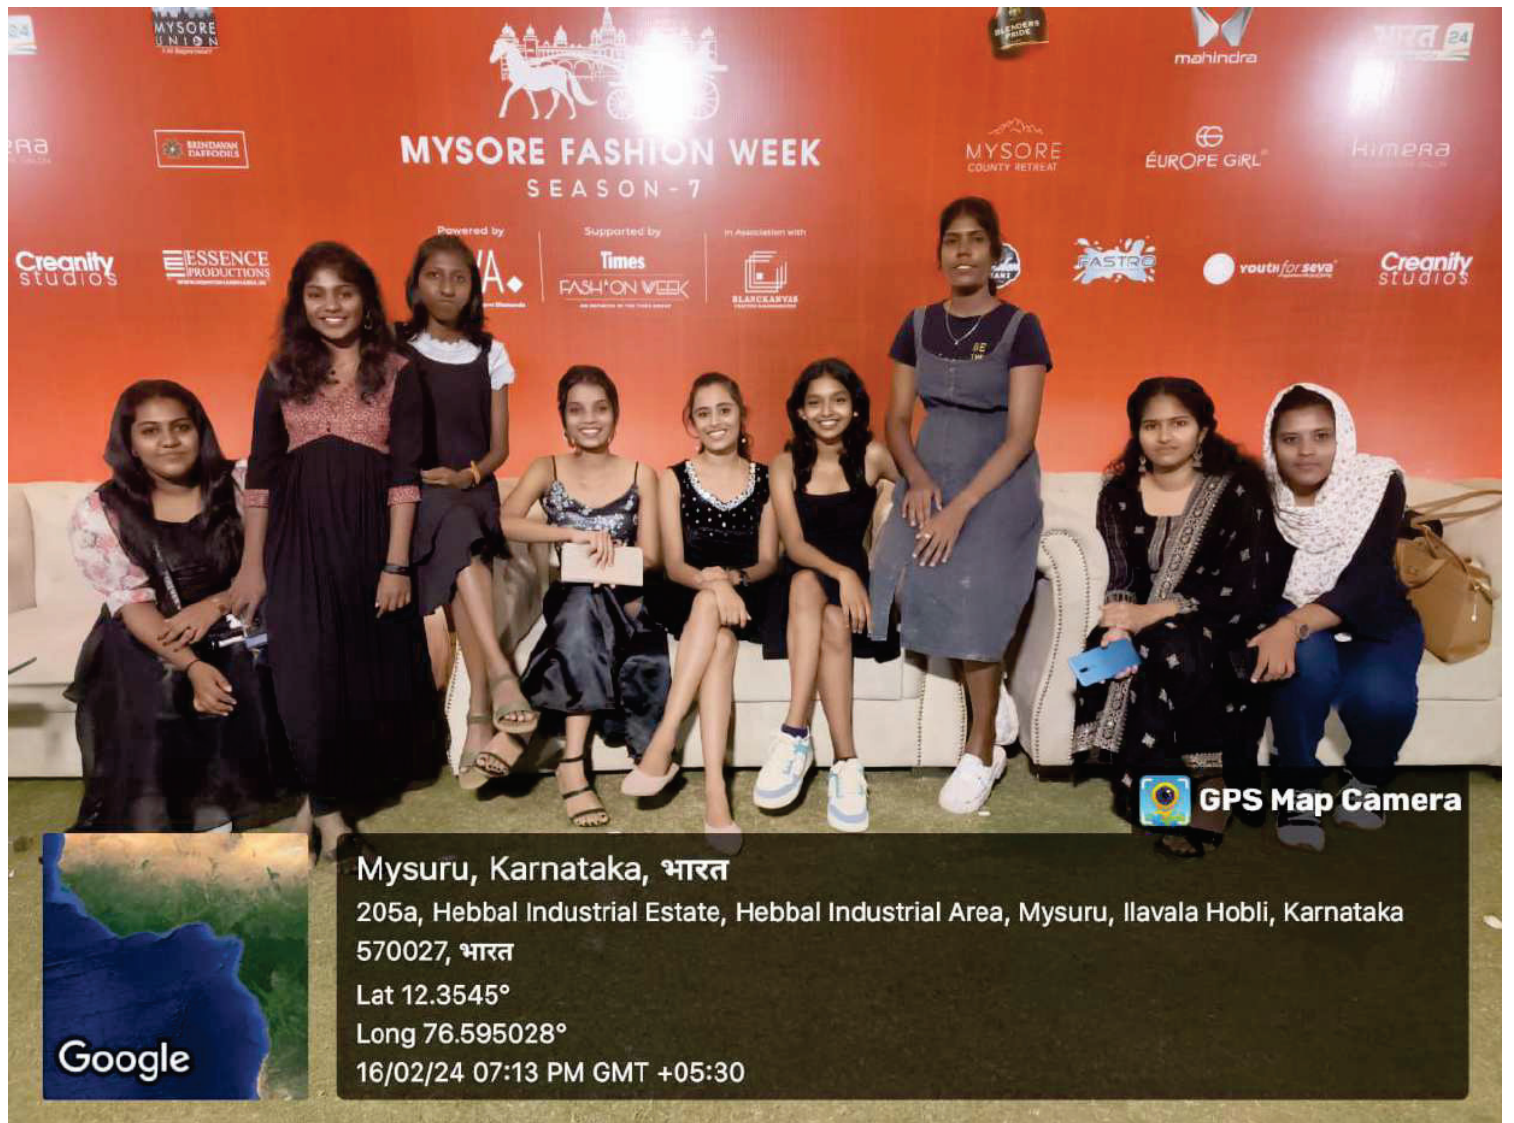

Student designers of fashion technology attended MYSORE FASHION WEEK on 16<sup>th</sup> Feb. 2024 which was organized by times of India .It was wonderful experience for the students. They could learn many things from Mysore fashion week. They could see many international designers' collections and designs. it was a wonderful experience and motivation for our tiny student designers.

OUTCOME: They could see many national level designers creativity on the runway. Students could understand the professional styles of designs and its perfections. They could communicate professional designers .Overall they learnt a lot of things related designing style communication skills etc.

## DEPARTMENT OF SOFTWARE DEVELOPMENT INDUSTRIAL VISIT REPORT 2023-24

Students of second year B Voc Software Development went for an industrial visit at Ziuke Infotech, Thrissur on 06-01-2024. Students had an exposure on 'The overview of Python Django'. The topics covered were

1. Introduction to Python and its Applications
2. Django Framework: Features and Components
3. Understanding Full Stack Development
4. Practical Insights into Django Projects

Outcome:

1. Students had a live experience on python Django framework.
2. Students had an opportunity to interact with professionals at Ziuke Infotech, Thrissur

### **REPORT ON INDUSTRIAL VISIT TO CITTIC AT CUSAT**

The 1<sup>st</sup> year UG students of Department of Software Development, organized an Industrial visit to CITTIC at CUSAT for first year students which aims to produce graduates with necessary and advanced knowledge on frontend development with react.

The Industrial visit was held on 30 December 2023 and the resource persons of the session was Mr. Muhammed Rinshad S R and Ms. Thrisha Kannan, full stack developers of NoTime at CITTIC, CUSAT.

The programme started with an opening remark delivered by Ms. Glymalakshmy G, Assistant professor and class coordinator, Department of software development, Carmel College (Autonomous) Mala.

The Industrial visit was attended by students of 1<sup>st</sup> UG Bvoc Software development. The session was explained to the participants by Mr. Muhammed Rinshad S R and Ms. Thrisha Kannan. They shared their experience of IT sector and guide about frontend development with react.

The industrial visit was informative, interactive and successful that added a lot of knowledge for our students. Students participated in the interactive session at conclusion and the Vote of thanks by class representative.

#### **Outcome:**

- Students get additional and new information about this course.
- And they realized that the IV will contribute better to their career growth.

**REPORT ON 8 DAYS SHORT TERM COURSE ON FRONTEND  
DEVELOPMENT AT CITTIC, CUSAT**

The 1<sup>st</sup>Year Bvoc Software Development, participated in a short term course on frontend development at CITTIC , CUSAT which aims to produce graduates with necessary and advanced knowledge on frontend development with React.

This course was conducted from 26<sup>th</sup> December 2023 to 2<sup>nd</sup> January 2024, the resource Persons of the session was Mr. Muhammed Rinshad S R and Ms. Thrisha Kannan, full stack developers of NoTime at CITTIC, CUSAT.

The programme started with an opening remark delivered by Ms. Glymalakshmy G, Assistant professor and class coordinator, Department of software development, Carmel College (Autonomous) Mala.

This short term course on frontend development was attended by students of 1<sup>st</sup> year Bvoc software development. At first, the session was explained to the students by Mr. Muhammed Rinshad S R and Ms. Thrisha Kannan. They shared their experience of IT sector. The activities which are done by the students on those 8 days are listed below :

Day 1: Introduction to frontend Javascript frameworks and libraries, followed by an introduction to React

Day 2: Dived into the world of Tailwind CSS and successfully designed the Navbar and Hero section of a Netflix -inspired interface.

Day 3: Started a journey with react and mastered the art of creating footers that aren't just at the bottom of the page. The hamburger menu became their new friend for creating user friendly navigation experiences.

Day 4: Learnt about props and the various aspects of routing and how React router handles them etc.

Day 5: Dived into the world of react with concepts like useState, Array mapping, even crafted individual movie display page.

Day 6: Created dynamic form using useForm and useState

Day 7: Entered into the world of Supabase for data management. The combination of these technologies allowed them to build a seamless and responsive form that takes user input in to the next level

Day 8: Got an overall knowledge about frontend development with React.

This short term course on frontend development was informative, interactive and successful that added a lot of knowledge for our students. Students participated in the interactive session at conclusion and at last vote of thanks by class representative.

**Outcome:**

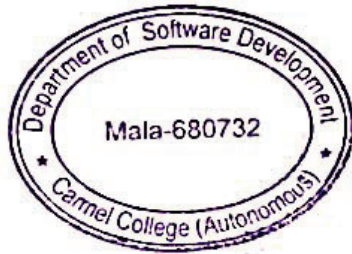

- Students become familiar with client-side Javascript application and the React library
- Learned how to set up a React project, create components and manage state in their application
- Learned how to use React to build interactive and dynamic web applications.
- Students get additional and new information about this course and realised that it will contribute better to their career growth.

Industrial visit report

Department of Sociology 2023-2024

On 24<sup>th</sup> January, PG students & two teachers of our department organized an industrial visit to Noble Industries located in Avittathur, Thrissur. The visit aimed to provide students with practical insights into industrial operations and food cultural studies. Upon arrival, the students were warmly welcomed by Mr. Paul Kodyil, the manager of Noble Industries. He provided an overview of the company's history, products, and operations. The students were divided into groups and guided through various sections of the factory. They witnessed firsthand the manufacturing processes, machinery, and quality control measures implemented by the company.

Mr. Paul Kodyil conducted an interactive session where students could ask questions and engage in discussions about the challenges and opportunities in the industrial sector. The company representatives delivered a presentation on Noble Industries' commitment to corporate social responsibility, including their initiatives towards environmental sustainability and community welfare. Students had the opportunity to interact with members of the management team, gaining insights into the strategic decision-making process and future plans of Noble Industries.

The visit concluded with a vote of thanks to the management of Noble Industries for their hospitality and valuable insights. The industrial visit to Noble Industries provided students with a comprehensive understanding of industrial operations, management practices, food culture and corporate social responsibility initiatives. It offered a valuable learning experience that complemented their theoretical knowledge and prepared them for future careers in the industrial sector.

**OUTCOMES :**

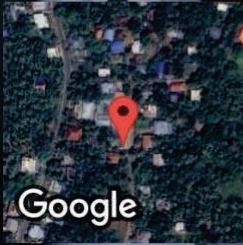

- Enhanced Understanding of industrial production.
- Real World Application.
- Facilitated networking & Career Insights.

## **National Broadcasting Day – Media Visit Report**

Department Of Sociology

2023-24

On the occasion of National Broadcasting Day, the Department of Sociology at Carmel College, Mala, organized an insightful industrial visit to Club FM Thrissur on July 31st, 2023. The objective was to provide students with hands-on exposure to the operational dynamics of a distinguished media establishment.

A delegation of five students from the 3rd semester of the M.A. Integrated Sociology program participated in the visit, accompanied by Jisha Chakunny M, Head of the Department of Sociology, and Manjusaranya MM, Assistant Professor in Journalism, both eminent members of the Department of Sociology.

The visit commenced at 11 am at Club FM Thrissur, where RJ (Radio Jockey) and Programme Producer Paulsy welcomed the delegation. Roshni Muraleedharan, Programme Head, graciously outlined the schedule and activities for the day.

Preceding the tour of the recording studio, RJ Paulsy and Producer Simla conducted an informative session, shedding light on daily operations, major departments, and key personnel within the studio. The visit included a detailed exploration of the recording studio and the radio station. Programme Head Roshni Muraleedharan granted photography permissions within the recording studio and recording room. RJ Paulsy provided a comprehensive introduction to various radio equipment, elucidating microphone types, recording techniques, audio editing processes, and relevant software tools. A remarkable hands-on experience allowed students to record their own audio, delivering practical exposure in a studio setting. RJ Paulsy's insights, spanning 11 years of experience at Club FM, added an invaluable authentic perspective to the visit.

The visit culminated in an engaging question and answer session. Programme Head Roshni Muraleedharan, joined by RJ Paulsy and Programme Producer Paulsy, and adeptly addressed student queries, providing comprehensive insights into broadcasting, radio production, and potential career pathways within the industry. National Broadcasting Day media visit to Club FM

Thrissur offered students a tangible connection to the media and broadcasting industry. This experiential approach facilitated interactive learning, offering students direct interaction with industry professionals and fostering a profound grasp of radio production.

With profound gratitude on behalf of Carmel College, Mala, Aswani K, a student from the 2nd MA Integrated programme, extends her heartfelt appreciation to Club FM Thrissur. The generous hosting of this visit significantly enhanced the collective learning experiences of the students.

#### Impactful Outcomes of the Media Visit

**Hands-on Experience:** The opportunity to interact with various radio equipment, including microphones and audio editing software, enabled students to gain hands-on experience. Actively engaging in recording processes further deepened their comprehension of the production workflow.

**Industry Exposure:** Interaction with industry professionals, particularly those who shared their experiences, offered a unique perspective on the challenges and nuances of the radio broadcasting field. Students gained valuable insights that extended beyond traditional classroom learning.

**Career Awareness:** The interactive sessions, including the question and answer segment, provided comprehensive information about potential career paths in broadcasting and radio production. This exposure broadened students' understanding of potential future endeavors.

**Enhanced Learning:** The visit embraced an experiential learning approach, enabling students to internalize concepts in a practical setting. This immersive encounter complemented their academic curriculum, fostering a holistic and profound understanding of the subject matter.

## DEPARTMENT OF SOCIOLOGY

### ANGANWADI VISIT REPORT 2023-2024

An Anganwadi visit Programme organized by Department of Sociology as a part of extension programme. It is an exposure to students for an interactive session with children and teachers. It helped the students to know about the functioning of Anganwadi and the important of Anganwadi's in our society. A team of six students and two teacher's visited nearby Kavanadu Anganwadi on August 21, Monday as a part of extension programme. The students spent the quality of the time with children and they entertained them with group song and dance. An interaction with teachers gives the opportunity to understand functioning and development of Anganwadi.

#### Outcome:

1. It helped to develop the interaction skills of students
2. It gave an insight in to functioning and Anganwadi
3. It helped students to know about the important of Anganwadi

### **Report on the Industrial Visit to Kerala Startup Mission, Kochi**

An Industrial visit was made by all the First, Second and Third Year BSc Applied Physics students to Kerala Startup Mission, Kochi, on 20th December, 2024. Students alongwith Dr. Maya Mathew reported at the KSUM at 11:00 am. The students were given an overview of the centre and the type of startups which are supported there. They also described in detail regarding the financial supports offered to candidates with novel startup ideas. Financial assistance and facilities were provided only upto the development of a prototype. Assistance is also provided for the introduction of the product into the market too. The students were also given an overview of the type of facilities hosted by the institution and also the collaborations it has for the benefit of the candidates. Later, the students visited the labs where startup ideas were made into a reality. Good descriptions were given to the students regarding the facilities and the products which were designed at each lab. The visit ended in the afternoon after a group photo session.

**Outcome:** Students got an opportunity to explore the prospects of startup in Kerala and the kind of support that the government and non- governmental organizations provide for startups. They also got an exposure of the facilities rendered for making a prototype.

**DEPARTMENT OF BUSINESS ADMINISTRATION**

**“INDUSTRIAL VISIT”**

**REPORT**

On 29<sup>th</sup> November 2023, Department of Business Administration organised Industrial Visit to Modern Bread Company, Edapilly. All the second year students from the department have participated in the Industrial Visit. The Company Visit started at 11.30 am We firstly entered into the batter mixing section. The employees of the organisation explained about baking of bread and after baking products were packed accordingly. The visit concluded at 12.30 pm. They taught us about the different varieties of bread making and also about the varied aspects of doing the process in an organised manner. It was an informative learning session for the students.

Outcome : It carved the learning experience of industrial production in a new perspective for the students. They learned the mass production of food items in an organised and efficient manner.

**DEPARTMENT OF BUSINESS ADMINISTRATION**  
**EXPERIENTIAL LEARNING on "SHARE TRADING"**  
**REPORT**

Department of Business Administration, Carmel College (Autonomous), Mala organized a experiential learning to visit include 8 members of each group with Ms. Shalu Pau on 26<sup>th</sup> October 2023. In Mala, Geojit Manager Vincent sir gave a warm welcome and gave general idea about Geojit Operations. share trading basis session was led by system operator of Geojit Financial Services Ltd. Mala. She gave an awareness about share trading industries with true story-based explanations. There were 16 students participated for the share trading practice session. It began at 2.00 pm and ended at 4 pm. It gave deep idea about shares, debentures, bonds and, also understand most trending in share market. Industry, banking sector. They gave a general knowledge about futures and options.

And they answered to all the students doubts about share market and evaluate SWOT analysis. The visit encouraged students to identify the opportunities about share market and promote for safe investments.

Outcome: It provided practical knowledge about share trading in real world.

**DEPARTMENT OF B.Voc AGRICULTURE 2023-2024**

### **FIELD VISIT –REPORT**

**Date-6/03/2024**

**Time-10.45 am**

**Place-Vadama**

#### **REPORT**

The primary objective of the visit was to gain practical insights into modern agricultural practices, particularly in watermelon cultivation, and to observe tissue culture techniques employed in the lab. This visit aimed to bridge the gap between theoretical knowledge and its practical application. The visit was divided into two parts:

- 1. Watermelon Field:**
  - Location: Vadama
  - Duration: Morning Session
  - Focus: Watermelon cultivation techniques, pest management, irrigation systems, and post-harvest handling.
- 2. Tissue Culture Lab:**
  - Location: Kerala Forest Research Institute, Kuzhur subcentre.
  - Duration: Afternoon Session
  - Focus: Tissue culture techniques, micropropagation, and genetic modification.

#### **Details of the Watermelon Field Visit**

The watermelon field was well-organized with rows of plants spaced adequately to ensure proper sunlight exposure and ease of management. Drip irrigation systems were installed to optimize water usage and promote uniform growth.

**Varieties Observed:** Different watermelon varieties were cultivated, including seedless and hybrid types. **Planting Techniques:** The farm used both direct seeding and transplanting methods. Transplants were grown in a nursery before being transferred to the field. **Soil Management:** The soil was rich in organic matter, with regular compost application to maintain fertility. **Pest and Disease Management:** Integrated Pest Management (IPM) strategies were employed, including the use of biological controls and minimal pesticide application.

**Irrigation and Fertilization**-The drip irrigation system ensured efficient water usage, reducing wastage and preventing waterlogging. Fertilization was done through fertigation, allowing nutrients to be directly delivered to the plant roots.

**Harvesting and Post-Harvest Handling**-Watermelons were harvested at the peak of ripeness, with workers trained to identify the right time for picking. Post-harvest handling included grading, sorting, and packing the watermelons for market distribution.

## **Details of the Tissue Culture Lab Visit**

The lab visit began with an overview of tissue culture techniques, emphasizing their importance in plant propagation, especially for producing disease-free and genetically uniform plants. The lab was equipped with state-of-the-art facilities, including laminar flow hoods, autoclaves, and culture media preparation areas. Various stages of tissue culture were demonstrated, from explant preparation to the final stage of acclimatization.

**Micropropagation Techniques**-The lab showcased micropropagation techniques used for producing high-quality planting material. This included: **Callus Induction**: Demonstration of how plant tissues are induced to form callus, which can then be used for regeneration.

**Shoot Multiplication**: Techniques to multiply shoots from a single explant were shown, highlighting the efficiency of tissue culture in producing large numbers of plants.

## **Learning Outcomes**

- **Watermelon Field:**
  - Gained a comprehensive understanding of watermelon cultivation, including modern irrigation techniques and sustainable pest management practices.
  - Observed the importance of soil health in achieving high yields and the role of post-harvest handling in maintaining product quality.
- **Tissue Culture Lab:**
  - Learned about the intricacies of tissue culture, including the different stages of micropropagation.
  - Understood the potential of tissue culture in producing disease-free plants and its applications in genetic research.

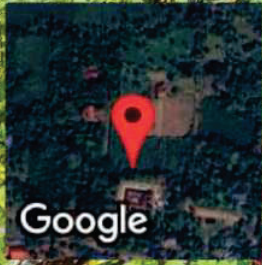

The visit to the watermelon field and tissue culture lab on March 6, 2024, was highly educational and provided valuable insights into contemporary agricultural practices and biotechnological advancements. The hands-on experience gained from observing these practices will be instrumental in applying theoretical knowledge to real-world scenarios.

**Department of B Voc. Agriculture 2023-2024**

## **Tour Report**

The Department of B Voc. Agriculture organized an enriching industrial visit for its faculty and students to Tamil Nadu Agricultural University on 18<sup>th</sup> January 2024, followed by an exploration of Bengaluru on 19<sup>th</sup> January 2024. The trip provided a holistic exposure to various facets of agriculture and cultural experiences.

The journey started at 5 00 am on 18<sup>th</sup> January 2024, from the college and reached Tamil Nadu Agricultural University at 9 00 AM. At Tamil Nadu Agricultural University, the participants had the privilege of visiting several key departments and units. The Environmental Science Department showcased sustainable practices and environmental conservation efforts. The Insectary and Bio-control Production Units of the Entomology Department were explored, providing a hands-on experience in insect preservation and exhibition and management and biological control methods for pests.

The Pathology Department showcased its facilities, offering a glimpse into the study and management of plant diseases. The Mushroom Cultivation Unit demonstrated techniques in cultivating mushrooms, packaging and preservation and marketing. The participants could also visit mushroom processing where they familiarized with marketable value added products form mushroom.

The visit to Apiary allowed participants to understand the importance of beekeeping in agriculture. They were also well-versed with the seasonal management of bee colonies and artificial feeds to bees.

The visit to Tissue Culture Lab provided an insight into modern agricultural practices, emphasizing the role of tissue culture in crop improvement. The participants could observe the basic facilities in a tissue culture lab, including the hardening facilities. There they also understood the basic management and operation of Greenhouses.

The visit to Livestock Farm was exceptional experience where the participants learnt about animal husbandry practices, contributing to a comprehensive understanding of agriculture. The understanding on the housing management, care and management of young ones of cattle, care and management of pregnant and lactating animal, milking practices, *etc.*, nurtured the entrepreneur inside the students. The attached Vermicompost Unit showcased the process of converting organic waste into nutrient-rich compost using earthworms. This helped the students to think the importance of keeping their surrounding clean and thus the commitment to society.

Throughout the industrial visit, participants gained practical knowledge and exposure to diverse facets of agricultural research and production at Tamil Nadu Agricultural University.

Following their time at the university, the group embarked on an overnight journey to Bengaluru at 10 00 PM. On the next day (19<sup>th</sup> January 2024), they commenced their exploration of the city with visits to Lal Bagh and the Visvesvaraya Industrial and Technological Museum. Lal Bagh, a historic botanical garden, offered a serene environment, showcasing a diverse collection of plants and trees. The Visvesvaraya Industrial and Technological Museum provided a fascinating insight into science and technology, engaging the participants with interactive exhibits.

In the afternoon, the group visited the Garuda Shopping Mall, providing an opportunity for leisure and retail therapy. The mall, known for its diverse shopping outlets, added a modern touch to the itinerary. Later in the evening, the participants strolled through Commercial Street, a bustling shopping and entertainment district. Here, they indulged in a delightful combination of shopping and savoring local cuisine. After a dinner the participants started their return journey at 10 00 PM and reached the college on 20<sup>th</sup> January 2024 at 10 00 AM.

### **Outcome**

The overall experience was a blend of academic enrichment, cultural exploration, and leisure, offering students and faculty a well-rounded understanding of both agricultural practices and the vibrant city life in Bengaluru.

**CARMEL COLLEGE (AUTONOMOUS), MALA**  
**PG DEPARTMENT OF COMMERCE**  
**Study tour to Goa**

PG Department of commerce organized a experiential learning on "Study tour to Goa" on 6<sup>th</sup> December to 9<sup>th</sup> December 2024. The fifty- six students and four teachers went to Goa. The study tour to Goa was organized with the aim of providing students with an opportunity to explore the rich cultural, historical, and environmental aspects of this vibrant coastal state. The study tour to Goa provided students with a multifaceted learning experience, combining cultural immersion, educational exploration, and environmental awareness. Through visits to historical sites, educational institutions, and natural landmarks, participants gained a deeper understanding of Goa's rich heritage, academic landscape, and environmental challenges. The tour not only broadened their perspectives but also instilled a sense of responsibility towards preserving Goa's cultural and natural treasures for future generations. The place visited are Agauda Fort, Siquerium Beach and Fort, Chapora Fort and Dilchahte, Anjuna Beach/ Vagator beach, Calangutte Beach , Shopping at flea market, enjoyed DJ, Panjim city, Jesus Basilica Se cathedral, Archeological Museum, etc.,

**Outcome:** The study tour to Goa was not only an educational journey but also a transformative experience that broadened perspectives, fostered personal growth, and inspired a commitment to sustainable tourism and cultural preservation.

**PG DEPARTMENT OF COMMERCE**  
**REPORT ON INDUSTRIAL VISIT**

As the part of the experimental learning, the first year M.com finance, second year B.com finance and co-operation student, arranged one day industrial visit to "KINFRA Integrated Industrial & Textile Park located at Kanjikode P.O, Palakkad- Periyar Polymers Private Limited. There were 75 students and 4 teachers for the visit. Students had the opportunity to visit the production, packaging section, grading, employment facilities, etc., of sponge and foam. They had one interacting session with the production manager. He explained about the company 's starting stage, marketing place, different brands and problems faced by the company. Next from Kanjikode we went to visit the Malampuzha Dam and the guide explained about the specialty and mythical fact of the dam and also, we visited the Palakkad Fort to understand the historical story of the fort. Overall, the visit was a success in terms of knowledge acquisition and exposure to real-world industrial practices. We express our gratitude to KINFRA and Periyar Polymers Private Limited for facilitating this educational and enlightening opportunity.

**Outcome:** The students were highly experienced in the production method of the foam and sponge, even they enjoyed the mythical fact of the dam and the historical story of the fort.

Sub:- Permission letter for industrial visit

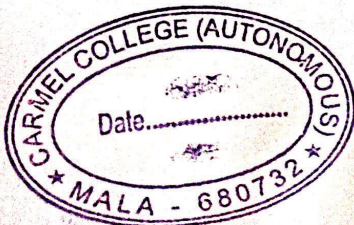

Respected Sir,

On behalf of PG department of commerce, Carmel College (Autonomous), Mala, hrissur.  
I am writing this letter getting permission to conduct an industrial visit in your industry.

As part of experiential learning we decided to give some practical education to the student about the industrial procedure and its facility. For that, your firm is the best option to carry on such a project. In that case, we need your support. 75 students (4<sup>th</sup> semester UG and 2<sup>nd</sup> semester PG) will be the part of the trip accompanied by 4 teachers. We are planning this visit on 5<sup>th</sup> January 2023. Hope this date will be suitable for you also.

If any inconvenience please inform me the earliest. Eagerly waiting for the positive response.

Thanking you

Yours Sincerely,

  
PRINCIPAL - IN-CHARGE  
Carmel College (Autonomous)  
Mala

From,

Dr.Stegy V.J

## Report: Visit to Snackoman Food Processing Company

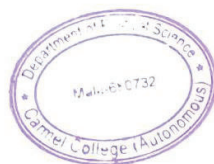

On April 10, 2023, at 1:30 PM, the Department of Political Science organized an entrepreneurial venture visit to Snackoman Food Processing Company, located in Poovathussery. The visit was aimed at providing students with practical insights into the operations of a food processing business and the entrepreneurial challenges and opportunities within this industry.

Upon arrival, the group was welcomed by the management of Snackoman, who provided an overview of the company's history, mission, and product range. The visit included a comprehensive tour of the production facilities, where participants observed the various stages of food processing, from raw ingredient handling to packaging. The company representatives also discussed their entrepreneurial journey, including the challenges faced and strategies employed to achieve success in a competitive market.

The visit was attended by 12 participants and was meticulously organized by the Department of Political Science, offering valuable exposure to the dynamics of running a successful food processing enterprise.

### Outcome of the Program

The visit to Snackoman Food Processing Company was highly successful and yielded several key outcomes. Students gained practical knowledge about the food processing industry, including insights into production processes, quality control, and business management. The exposure to real-world entrepreneurial practices provided a clearer understanding of the challenges and opportunities inherent in starting and managing a business. Additionally, the visit sparked interest and inspiration among students, motivating them to consider entrepreneurial ventures and explore potential career paths in the industry. Overall, the experience significantly contributed to the students' educational growth and practical understanding of entrepreneurship.

## Report: Grama Sabha meeting

On August 1, 2023, at 10:30 AM, the students from the Department of Political Science at Carmel College (Autonomous), Mala, participated in a Grama Sabha meeting held at the Panchayat Hall. This engagement involved 27 participants and was a key component of their experiential learning initiative aimed at providing practical insights into local governance and grassroots democracy.

During the meeting, which took place in a village setting, the students observed the deliberation process on community issues, budget allocations, and development projects. They witnessed firsthand the role of citizens in shaping local policies and the significance of active participation in the decision-making process. This experience allowed the students to understand the practical aspects of local governance and the impact of grassroots involvement in democratic processes.

### Outcome of the Program

The outcomes of this participatory experience were multifaceted. Firstly, the students gained a deeper understanding of the democratic process at the local level, bridging the gap between theoretical knowledge and practical application. They noted the significant impact of community involvement on effective governance and the implementation of development projects. Additionally, the exposure to real-world challenges and community interactions enhanced their analytical skills and ability to engage in policy discussions. Overall, this experience significantly contributed to their academic growth and practical understanding of political science, equipping them with valuable insights for their future careers in the field.

## Report: Honouring War Veterans

On the occasion of Independence Day, a program was organized at Vettilappara to honour the war veterans who have selflessly served our nation. The event, held on 14 August 2023, at 10.30 AM, was a heartfelt tribute to these courageous individuals who have contributed to safeguarding our freedom and sovereignty.

The program commenced with an opening address, highlighting the significance of honouring our war heroes and recognizing their sacrifices. It was followed by a series of speeches, expressing gratitude and admiration for the veterans' dedication and bravery.

Five war veterans were honoured during the event:

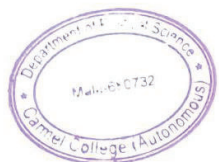

1. Francis Pulikan: Known for his valour and dedication to duty.
2. George: A courageous warrior who displayed exceptional bravery in the face of adversity.
3. Varghese: His unwavering commitment to the nation serves as an inspiration to all.
4. Immanuel P A: His sacrifices and contributions to national security are deeply appreciated.
- 5 Martin: A true patriot who exemplifies the spirit of service to the nation.

The program also included cultural performances, showcasing the rich heritage and diversity of our country. These performances added a vibrant touch to the event and were a tribute to the indomitable spirit of our nation.

The event was attended by 35 participants, each contributing to the success and significance of the occasion. Their presence underscored the collective respect and appreciation for the veterans being honoured.

### Outcome of the programme

The program was a fitting tribute to our war veterans, acknowledging their sacrifices and honouring their service to the nation. It served as a reminder of the importance of respecting and remembering the contributions of those who have dedicated their lives to protecting our freedom and sovereignty.

## Report: Court Visit

As part of experiential learning, the faculty members and the students of the Department of Political Science visited the Sub Court (First Class Judicial Magistrate) at Mini Civil Station, Irinjalakuda on 18th August, 2023. The visit began at 10:30 AM. Students witnessed the court proceedings of a few cases in Additional District & Sessions court & Prl. Asst. Sessions Court, Prl. Munsiff & JCFM No.3 court. It helped in understanding the working of court, case proceedings etc. It also helped to witness the judicial officers creating an impulse in the students to grab career in the judicial offices. The participation of 17 students enriched the learning experience and provided a deeper appreciation of the legal profession.

### Outcome of the Program

It helped the students to understand the nature of the judicial office, officials and the working of a court. It was also beneficial in understanding the role of court in dispensing justice, the role of prosecutors, judges and defense lawyers in handling the case, the way cases proceed in a court. It gave an opportunity in witnessing the whole process.

## Report: Seminar and Discussion on NEP

As part of a MoU with St. Philomena's College, Mysore under Xavier Board, 25 students and 3 faculty members of the Department of Political Science of Carmel College (Autonomous), Mala visited the St. Philomena's College (Autonomous), Mysore, Karnataka on 7th December, 2023. A seminar and discussion was held on the implementation of NEP in autonomous colleges. It was a well participated session; lots of questions were shared along with the discussion on the functioning of various departments in an autonomous college like the IQAC, Examination, and Controller of Examination. The session was held in the St. Philomena's College Auditorium and resulted in useful insights for both parties. All the UG and PG students of the department of Political Science of St. Philomena's college were part of the programme.

### Outcome of the Programme

As our college acquired autonomous status recently, it was a very fruitful experience for the faculty members and students of the department of political science. It was beneficial in creating awareness about the NEP implementation. It also helped to know more about the functioning of Autonomous colleges especially the departments of Examination, IQAC, and Controller of Examination and so on. Moreover it was an interstate visit and discussion which proved to be very interesting.

### Study Tour of VI Semester B.A. Functional English Students to Kottapara View Point, Ilavvezha Poonchira, Illikkal Kallu, Malankara Dam and Thommankuthu (27-02-2024)

### REPORT

On 27<sup>th</sup> February 2024, the VI Semester B.A. Functional English students embarked on a transformative study tour aimed at immersing them in the rich literary and cultural tapestry of the region. Departing from Carmel College (Autonomous), Mala, at 3:15 a.m., the students and accompanying faculty embarked on a day-long journey filled with exploration, discovery, and experiential learning.

The tour commenced with a breathtaking visit to Kottapara View Point, where students were treated to a spectacular sight: the setting moon and the rising sun gracing the horizon simultaneously. Here, amidst the tranquil beauty of nature, students engaged in critical discussions on the intersection of literature and the environment, gaining practical insights into the environmental themes prevalent in literary works. Following a hearty breakfast at 7:00 a.m., the group ventured to Illikkal Kallu, a majestic peak renowned for its geological formations and scenic beauty. Through guided discussions and literary

analysis, students explored the symbolic significance of natural landscapes in literature, deepening their understanding of environmental themes in literary texts.

After a sumptuous lunch, students and faculty moved on to the next destination — Malankara Dam. It is a gravity dam constructed across Thodupuzha river for irrigation purposes. The dam is constructed to make use of the tail water from the Moolamattom Power House. The project is run under the Muvattupuzha Valley Irrigation Project and KSEB. The artificial lake covers an area of around 11 square km. Here, the students discussed about the role of water bodies in literature and culture, fostering an appreciation for the cultural significance of natural landmarks. At Ilavvezha Poonchira, students delved into the cultural heritage of the region, examining the literary motifs and cultural symbols prevalent in local folklore and traditions. As the day progressed, the group visited Thommankuthu waterfall, engaging in critical analysis of literary works inspired by natural landscapes. Here, amidst the cascading waters and lush greenery, students reflected on the evocative power of nature in literature, honing their skills in literary interpretation and analysis.

After supper, students had the opportunity to unwind and immerse themselves in the world of cinema as part of their Film Studies Core Course by watching the recent blockbuster rom-com Malayalam movie *Premalu* at Ashirvad Theatre, Perumbavoor. This film, a poignant portrayal of young adulthood, delves into the challenges and adventures faced by young adults as they navigate their first jobs or strive to secure employment. It captures the essence of newfound independence, portraying the struggles, aspirations, and triumphs of individuals venturing into the professional world away from the comforts of home. The participants reached Mala by 1.00 am.

## STUDY TOUR: OUTCOMES

1. **Experiential Learning** The study tour provided students with hands-on experiences, allowing them to apply theoretical knowledge to real-world contexts and gain practical insights into literary and cultural aspects.
2. **Appreciation of Nature and the Environment:** Visits to natural landmarks raised students' awareness of environmental conservation and sustainability, fostering a sense of responsibility towards the preservation of natural resources.
3. **Literary and Cultural Appreciation** Through guided discussions and explorations, students gained a deeper appreciation for the literary and cultural heritage of the region, recognizing the intrinsic connection between literature, culture, and the environment.
4. **Critical Thinking and Analysis:** Engaging in literary analysis and interpretation, students honed their critical thinking skills, developing the ability to analyze complex literary texts and extract deeper meanings.

5. **Time Management and Organization:** By adhering to the tour schedule and managing their time effectively, students demonstrated their organizational skills and ability to navigate diverse environments with precision and efficiency.
6. **Meaningful Academic Engagement:** The tour facilitated meaningful academic engagement, encouraging students to actively participate in discussions, debates, and reflective exercises, fostering intellectual curiosity and scholarly inquiry.
7. **Teamwork and Collaboration:** Through collaborative learning activities and group discussions, students cultivated teamwork skills, learning to collaborate effectively with their peers and contribute positively to group dynamics.
8. **Personal and Professional Development:** The study tour provided students with opportunities for personal and professional growth, fostering self-awareness, resilience, and adaptability in diverse environments.

#### **OUTCOMES OF WATCHING MOVIE AS PART OF THE STUDY TOUR**

9. **Enhanced Understanding of Real-world and Reel World Experiences:** Through the film *Premalu*, students gained a deeper understanding of the real-life challenges faced by young adults as they transition into the professional sphere.
10. **Empathy and Relatability:** By witnessing the characters' journeys in *Premalu*, students developed empathy and found elements of their own experiences reflected in the narrative, fostering a sense of relatability.
11. **Critical Thinking and Analysis of Film:** Analyzing the film *Premalu*'s themes, character development, and storyline encouraged students to engage critically with the content, honing their analytical skills and expanding their perspectives. It was a practical application of film theories they have studied as part of the Film Studies Core Paper. It helped a lot for using them in their project works based on contemporary films.
12. **Exploration of Independence and Identity:** The film *Premalu* sparked reflections on themes of independence, identity, and personal growth, prompting students to contemplate their own aspirations and identities as emerging professionals.
13. **Cultural Appreciation:** Experiencing a popular Malayalam film *Premalu* allowed students to appreciate the cultural nuances and storytelling traditions of Mollywood cinema, enriching their understanding of regional cinema and cultural diversity.

Overall, the study tour served as a catalyst for holistic learning, integrating academic exploration with practical experiences and fostering the development of well-rounded, culturally

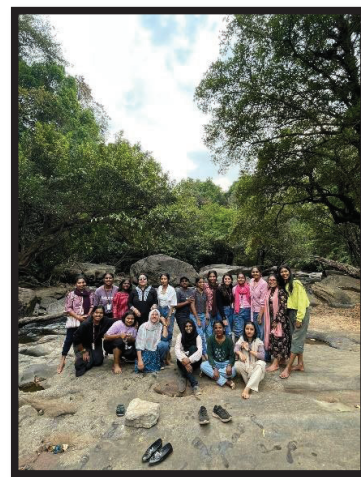

aware, and intellectually engaged individuals. Throughout the tour, students actively participated in group discussions, collaborative learning activities, and reflective exercises, fostering teamwork, academic engagement, and personal development. By navigating the itinerary with precision and time management, students demonstrated their ability to balance academic exploration with practical experiences, enriching their educational journey.

Dear Sister

Sub: Request for Permission to Organize One-Day Study Tour to Kottapara View Point, Ilavvezha Poonchira, Illikkal Kallu, Malankara Dam and Thommankuthu on 27<sup>th</sup> February 2024

The students of VI Semester B.A. Functional English would like to go for a study tour to Kottapara View Point, Ilavvezha Poonchira, Illikkal Kallu Malankara Dam and Thommankuthu on 27<sup>th</sup> February 2024. All necessary arrangements, including transportation will be handled responsibly to ensure the safety and well-being of our students throughout the tour. Kindly request you to grant permission for the same.

I hereby attach the names of students, accompanying faculty and tentative schedule for your kind perusal.

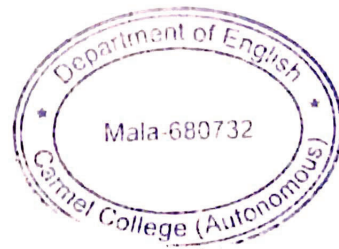

We look forward to your response.

Thanking you

Yours sincerely

Dr. PRETTY JOHN P.  
Assistant Professor & HOD

### **REPORT**

An extension activity was organized on 21<sup>st</sup> December 2023 in Ward 11 of Annamanada Grama Panchayat, focusing on the post-Covid health survey of MGNREGA women workers, distribution of saplings, and skill development training on eco-friendly paper-pen making. The event aimed to assess the health status of MGNREGA women workers post-pandemic, promote environmental sustainability through tree plantation, and enhance their skills in eco-friendly paper-pen making.

Dr. Pretty John P., Head of the Department of English and Event Co-ordinator introduced the event and welcomed the gathering. Ward Member Mr. K.A. Byju delivered the keynote address and he appreciated the efforts and social commitment demonstrated by the students and faculty of the Department of English for “We Care: Community Care” Event. Students celebrated Christmas amongst MGNREGA women workers by cutting Christmas Cake. Aparnika A.C. proposed vote of thanks. This was followed by the distribution of saplings and questionnaire for post-Covid health survey and skill development training session on eco-friendly paper-pen making by Hannath Habeeb and Fathima Noufira K.M. from II B.A. Functional English.

#### **Event Activities:**

- 1. Post-Covid Health Survey:** The event began with a post-Covid health survey conducted among MGNREGA women workers of Ward 11 of Annamanada Panchayat. Students collected data on their health status, including any lingering health issues or challenges faced post-pandemic. This survey provided valuable insights into the health needs and concerns of the participants in the presence of
- 2. Distribution of Saplings:** As part of environmental conservation efforts, saplings were distributed among the MGNREGA women workers of Ward 11 of Annamanada Panchayat. The distribution aimed to promote tree plantation and encourage participants to contribute to environmental sustainability by planting trees in their surroundings. Each participant received saplings along with guidance on planting and caring for them.
- 3. Skill Development Training on Eco-Friendly Paper-Pen Making:** A skill development session on eco-friendly paper-pen making was conducted for the MGNREGA women workers of Ward 11 of Annamanada Panchayat. Resource Persons Hannath Habeeb and Fathima Noufira K.M. from II B.A. Functional English facilitated the training. Participants learned the process of making paper and pens from recycled materials, emphasizing eco-friendly practices and sustainable alternatives.

## OUTCOMES:

1. **Community Development:** The extension activity demonstrated students' commitment to community development and social responsibility. By organizing initiatives aimed at benefiting MGNREGA women workers, students showcased their dedication to addressing community needs and fostering inclusive societies.
2. **Improved Health Awareness:** The post-Covid health survey provided participants with insights into their health status post-pandemic, raising awareness about potential health issues and the importance of preventive measures.
3. **Environmental Consciousness:** The distribution of saplings promoted environmental consciousness amongst the MGNREGA women workers, encouraging them to actively participate in environmental conservation efforts. By distributing plant saplings, participants contributed to enhancing green cover and mitigating environmental degradation in their communities.
4. **Enhanced Skills:** The skill development training on eco-friendly paper-pen making equipped participants with practical skills in crafting paper pens from recycled materials. This training not only provided participants with an additional income-generating opportunity but also promoted eco-friendly practices and waste reduction in their communities.
5. **Empowerment through Student-Led Learning:** The involvement of students as resource persons for providing training on eco-friendly paper-pen making to MGNREGA women workers empowered both the students and the participants. Students had the opportunity to share their knowledge and skills, fostering a sense of leadership and responsibility. For MGNREGA women workers, this training served as a platform for learning new techniques and acquiring valuable skills, enhancing their confidence and self-reliance.
6. **Promotion of the Recycled Paper Use:** The emphasis on eco-friendly paper-pen making promoted the use of recycled paper, contributing to waste reduction and environmental conservation. By utilizing recycled materials, participants actively participated in sustainable practices, reducing the demand for new paper production and minimizing environmental impact.
7. **Seeds Inserted in Every Pen:** As an innovative approach to environmental conservation, seeds were inserted in every paper pen produced during the skill development training. This initiative aimed to encourage participants to plant trees and contribute to greening efforts in their communities. Each paper pen served as a symbol of growth and sustainability, inspiring participants to take proactive steps towards environmental stewardship.

8. **Reduction of Plastic Cover for Pens:** By transitioning from traditional plastic pens to eco-friendly paper pens, the event contributed to the reduction of plastic waste. Participants embraced sustainable alternatives, reducing reliance on single-use plastics and promoting eco-conscious consumer behaviour. This initiative aligned with broader efforts to combat plastic pollution and promote environmental sustainability at the grassroots level.
9. **Responsible Citizenship:** Through their involvement in the extension activity, students exemplified responsible citizenship by actively engaging in initiatives aimed at promoting environmental sustainability, health awareness, and skill development within their community.
10. **Dignity of Human Labour:** The event highlighted the dignity of human labor by recognizing the contributions of MGNREGA women workers and providing them with opportunities for skill development and empowerment. Participants were valued for their efforts and contributions to community development.
11. **Human Values:** Participants demonstrated human values such as compassion, empathy, and solidarity by actively participating in initiatives aimed at improving the well-being of others in their community. This emphasis on human values fostered a culture of caring and support within the community.
12. **Fostering Inclusive Society:** The extension activity promoted inclusivity by providing opportunities for MGNREGA women workers to participate and benefit from skill development and environmental conservation initiatives. This emphasis on inclusivity contributed to building a more cohesive and supportive society.
13. **Respect for Elders:** Students showed respect for elders by engaging with MGNREGA women workers in a collaborative and respectful manner, recognizing their knowledge, experiences, and contributions to the community. This respect for elders fostered intergenerational harmony and mutual understanding.
14. **Sharing and Caring:** The extension activity fostered a spirit of sharing and caring among participants, as they collaborated to address community needs and support each other in their endeavors. This culture of sharing and caring promoted social cohesion and collective well-being within the community.

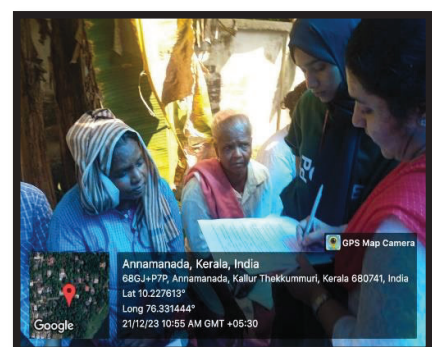

In conclusion, the extension activity on post-Covid health survey, distribution of saplings, and skill development training on eco-friendly paper-pen making showcased students' commitment to community development, social responsibility, and inclusive societies. By addressing community needs and promoting environmental sustainability, health awareness, and skill development, the event contributed to fostering responsible citizenship, human values, dignity of human labor, respect for elders, and a culture of sharing and caring within the community.

## Certificate of Appreciation

Annamanada Grama Panchayat is proud to have collaborated with the Department of English, Carmel College (Autonomous), Mala as a training and communication skills development partner of the "Spark of English" Programme as part of the Vijayabheri Project (English Communication Skills Training Programme) to equip the slow learners of 2 schools in Annamanada Grama Panchayat (Government Samithy Higher Secondary School, Meladoor and Government U.P. School, Annamanada) with the communication skills to optimize their learning and growth opportunities. We also appreciate the total commitment and outstanding support given by the students and faculty of the Department of English for the actualization of community development programmes associated with this successful collaboration for the academic year 2023-2024.

**“SPARK OF ENGLISH”**  
**(VIJAYABHERI PROJECT)**  
**IN COLLABORATION WITH**  
**ANNAMANADA GRAMA PANCHAYAT**  
**2023-2024**

The Department of English collaborated with Annamanada Grama Panchayat for the “Spark of English” Programme under the *Vijayabheri* Project (English Communication Skills Training Programme) as part of the Department’s Extension Activity. The specific focus of the activity was on enhancing the English communication skills and learning experience for slow learners of V STD in two schools under Annamanada Grama Panchayat: Government Samithy Higher Secondary School, Meladoor, and Government U.P. School, Annamanada. The list of slow learners of V STD who were the target group for the extension activity was shared from the end of the aforementioned schools to the Annamanada Grama Panchayat. The extension activity spanned 15 days, from January 4, 2024, to January 24, 2024. 8 students from I B.A. Functional English and 20 students from II B.A. Functional English served as resource persons for the extension activity. These 28 students were divided into three groups, each comprising one core and two peer teams. While Group I, led by Ms. Lakshmi Priya, II B.A. Functional English catered to slow learners of Government U.P. School, Annamanada, Groups 2 and 3, led by Ms. Gouri Vinod and Ms. Hannath Habeeb of II B.A. Functional English, respectively, took English communication training classes for the 2 batches of slow learners from Government Samithy Higher Secondary School, Meladoor. Ms. Linda. P. Joseph, Assistant Professor, coordinated the extension activity. Dr. Pretty John P., Head of the Department of English, Carmel College (Autonomous), Mala developed the syllabus and question paper for the final evaluation of V STD students. Dr. Pretty John P., Ms. Keerthy Sophiya Ponnachan, Ms. Linda P. Joseph, Ms. Sifna Xavier, and Ms. Annliya Shaijan served as student-teacher trainers of the “Spark of English” Programme. An assessment test was conducted on January 24, 2024, to gauge the progress made by each slow learner. The faculty of the

department promptly evaluated the answer scripts, and a comprehensive summary of the results was expeditiously provided to both the Panchayat and the beneficiary schools. Written feedback was gathered from the students of the schools to evaluate the effectiveness of the communication skills training given by the students of the department and to implement necessary reforms and improvements as deemed necessary.

## Department of History, Carmel College(Autonomous),Mala Report on the Heritage walk conducted by the PG Department of History on 15 /11/2023

The heritage walk to Mala Jewish sites organized for the postgraduate students and teachers of the History Department was a significant endeavor aimed at exploring and understanding the rich cultural and historical legacy of the Jewish community in MLA. The trip aimed to provide participants with a firsthand experience of the heritage sites and deepen their understanding of the Jewish diaspora in Kerala. The heritage walk commenced with a brief introduction to the Jewish history of MLA, highlighting its significance as one of the major centers of Jewish settlement in Kerala. The participants were provided with maps and information booklets detailing the route and historical background of each site. Paradesi Synagogue: The first stop of the heritage walk was the Paradesi Synagogue, also known as the Jew Street Synagogue. Built in 1568, it is the oldest active synagogue in MLA and a testament to the enduring legacy of the Jewish community. Participants admired the architectural grandeur, intricate woodwork, and unique design elements of the synagogue. Jewish Cemetery: The next destination was the Jewish Cemetery, where participants observed the tombstones and learned about Jewish burial customs and traditions. The cemetery served as a poignant reminder of the community's presence and contributions to MLA's cultural landscape. Jewish Street: As the heritage walk continued along Jewish Street, participants immersed themselves in the vibrant atmosphere of the bustling marketplace. They explored the antique shops, spice stalls, and quaint cafes, reflecting on the multicultural heritage of MLA. Jewish Heritage Museum: The final stop of the heritage walk was the Jewish Heritage Museum, where participants had the opportunity to view artifacts, photographs, and documents showcasing the history and culture of the Jewish community in MLA. The museum provided valuable insights into the community's religious practices, social life, and economic activities.

### Outcome of the Programme

The heritage walk to MLA Jewish sites was a transformative experience for both students and teachers. It offered a unique opportunity to connect with MLA's multicultural heritage and appreciate the contributions of the Jewish community to the region's socio-cultural fabric. Participants gained a deeper understanding of the challenges faced by the community and the efforts to preserve its rich heritage for future generations. The interactive nature of the heritage walk facilitated meaningful discussions and exchanges among participants, fostering a sense of camaraderie and shared learning. Students expressed gratitude for the opportunity to explore MLA's Jewish heritage firsthand and pledged to continue their efforts to promote cultural diversity and heritage conservation.

**Department of History, Carmel College(Autonomous),Mala**  
**Report on the experiential Learning conducted by the PG Department of History**  
**on 2 February 2024**

On February 2, 2024, 31 PG students of History, with 2 teachers visited various Heritage sites in Ernakulam, Hill Palace, Thrippunithura, Jewish Synagogue, Mattancherry. The experiential learning visit organized for the postgraduate students of History to various heritage sites in Ernakulam proved to be an enriching and insightful experience. The trip aimed to provide students with firsthand exposure to historical artifacts, architecture, and cultural significance. The first destination of our experiential learning journey was the Hill Palace in Thrippunithura. This sprawling complex, once the royal residence of the Cochin Maharaja, offered a glimpse into Kerala's royal history and lifestyle. The students explored the various galleries showcasing artifacts, paintings, sculptures, and weaponry dating back to different periods. They were particularly fascinated by the collection of ancient coins, manuscripts, and archaeological findings. The guided tour provided valuable insights into the socio-political milieu of Kerala during different historical epochs. Students actively engaged in discussions with the guide, asking pertinent questions and sharing their observations. The visit to the Hill Palace stimulated critical thinking and sparked interest in further research among the students.

The experiential learning visit to the heritage sites of Ernakulam proved to be a transformative experience for both students and teachers. It offered a holistic perspective on Kerala's diverse cultural tapestry, spanning centuries of history and tradition. The interactive nature of the visit fostered a spirit of inquiry, critical thinking, and appreciation for heritage preservation. The students expressed gratitude for the opportunity to witness history come alive and gain practical insights beyond classroom learning. They acknowledged the importance of preserving and promoting cultural heritage for future generations. The teachers commended the students' active participation and encouraged them to delve deeper into the historical narratives uncovered during the visit. The experiential learning visit to Hill Palace and Jewish Synagogue in Ernakulam was a resounding success. It not only complemented the academic curriculum but also instilled a sense of pride and responsibility towards heritage conservation. Such initiatives play a vital role in nurturing a generation of informed and culturally sensitive individuals. We extend our sincere thanks to the authorities of Hill Palace and Jewish Synagogue for their hospitality and valuable insights. We look forward to organizing more such enriching experiences for our students in the future.

**Outcome of the visit**

To enhance students' understanding of Kerala's rich historical and cultural heritage. To observe and analyze the architectural styles, artifacts, and historical significance of Hill Palace and Jewish Synagogue. To facilitate interactive learning and discussion among students and teachers.
