Trivandrum 695 043 India

**Environment Biodiversity- Green Audit Certificate**

**Carmel College, Mala, Thrissur, Kerala**

For the AY 2019 - '20

This Green Audit including evaluation of Biodiversity conservation has been conducted for Carmel College, Mala, Thrissur, in accordance with the International Standards for ISO 14000 family of standards set by ISO TC 207 and its sub-committees, Bureau of Energy Efficiency standards, and stipulations under the Energy Conservation Act 2003 of Government of India and other relevant mandates for promotion of sustainable living and education in a healthy environment.

In our opinion, the Institution has presented true and up-to-date data on the various aspects of working of this higher education institution before the audit team, and appropriate audit procedures have been completed by the audit team for preparing this report. The assessments and recommendations are based on data presented before the team as they existed at the time of audit.

In order to meet the objectives of the audit, the methodology did combine physical inspection of the campus on several work days and holidays, with analytical reviews of relevant documents and activities, as well as interviews with the Principal, selected Staff and students of the College.

This audit is conducted to ensure that a Green lifestyle is followed and implemented in the campus across all academic and non-academic departments, as well as the body of students undergoing studies in the College, so as to make all stakeholders aware of the need for individual efforts in perpetuating conservation efforts among the people.

Carmel Green Audit 2019-'20 has found that the institution's per capita carbon footprint for the year is only 0.077 ton of CO<sub>2</sub> equivalent, a level well below the current national per capita average, with potential to develop into a carbon neutral campus. All efforts are taken to conserve and protect the existing biodiversity and also to extend the efforts even beyond the college boundary through outreach, and further by adopting a dedicated Green Protocol, and having a commitment to continue its green practices to positively influence the society at large.

**Prof. V K Damodaran**

<p><b>Prof. V K Damodaran</b></p> <p><i>Ex-UNEP Expert For NGGFN Audit Team</i></p> <p>30 July 2020</p>

**Nature's Green Guardians Foundation**  
Trivandrum 695 043 India  
**Energy Audit Certificate**  
**Carmel College, Mala, Thrissur, Kerala**  
For the AY 2019-20

Energy Audit for the period July 2019 to June 2020 has been conducted for Carmel College, Mala, Thrissur, Kerala, in accordance with the International Standards for ISO 14000 family of standards set by ISO TC 207 and its Sub-committees, Bureau of Energy Efficiency standards, and stipulations under the Energy Conservation Act 2003 of Government of India, and other relevant mandates for maintenance of sustainable and healthy environment for education in the campus.

In our opinion, the Institution has presented true and up-to-date data on the various aspects of working of this education institution before the audit team, and appropriate audit procedures have been completed by the audit team for issuing this Audit Certificate and the Compliance Statement. The recommendations are based on verified data presented before the team as they existed at the time of audit.

In order to meet the objectives of the audit, the methodology did combine physical inspection of the campus on several work days and holidays, with analytical reviews of relevant documents and activities, as well as interviews with the Principal, IQAC team, and selected other members of Staff, as well as Students of the College.

Audit findings indicate that, of the 169.1 T CO<sub>2</sub> of carbon footprint of the institution for the year, the contribution from direct use of energy was limited to 71.1 T CO<sub>2</sub>. Transportation including public transport use (outside the campus) is at 51.6 T CO<sub>2</sub> – with only 27% of it coming from use of personal vehicles by staff and students. Introduction of renewable energy returned 32.7 T CO<sub>2</sub> (remedial measures). The per capita electricity consumption (35 kWh) is at the lowest possible level for a college with nearly 1500 students. Only very few students stay in the hostel. Awareness and training programs were conducted during the year. Stakeholders are aware of the need for individual efforts.
