About the Department

The department of Sociology came in to existence in 1984 and upgraded to a post graduate department with the introduction of M.A programme in 2006.

About the Seminar

This seminar sets out to examine the interface between gender, subject and every day life in contemporary India. Gendered subject is not biological or even psychological but primarily a social being who experiences her femininity in inter subjective relationships with several others in a complex interplay of class, caste, regional and socio economic factors .the complexity of gendered subject in her on construction is acknowledged ,as are also her frequent attempts at resistance, and this is infact central to the processes of social construction. The seminar also examines the gendered embodiment of the female subject in everyday life. So how gender is inscribed on subject in everyday life both socially as well as through her on perceptions of culture.

ABOUT THE COLLEGE

Carmel College, Mala in the Thrissur district of Kerala state, is a college for women. Re-accredited by NAAC with A Grade in Third cycle, affiliated to the University of Calicut and managed by the Sisters of the Congregation of Mother of Carmel. This institution was established in 1981 as an answer to the ever increasing demand for the higher education of young women from the middle & lower strata of society in the rural suburbs of Mala.

ABOUT THE SEMINAR

This seminar sheds light on gender roles and representations in cinema and how the movies influence people's view themselves in terms of their gender, it is deemed appropriate to examine this issue because discussions on gender equality in the film industry have gained increasing momentum in the last year amidst the ongoing reflection sparked by the global anti-sexual harassment *#metoo* movement and Hollywood's *time's Up* campaign.

Switch on your TV, or open your newspaper on any day, no, every day, there will be news concerning a female and her safety, the dangers that she faces and the crimes against her. In such a time, it becomes more important for media to break gender stereotypes and empower women through its narratives.
